BRAND INFORMATION

Nikka Whisky continues a steadfast legacy of marrying tradition and innovation, as set forth by its founder and the father of Japanese whisky, Masataka Taketsuru. Guided by Taketsuru’s philosophies, variations of malt whiskies distilled at Nikka’s two distinct distilleries – Yoichi, established in 1934, and Miyagikyo, established in 1969 – and grain whiskies distilled in Coffey stills remain the core pillars of Nikka’s complexity and creativity. Today, Nikka offers a wide variety of artisanal expressions brought by its unique assets and skillful blending.
